EXPERIENCE

UX Researcher at KCM Tech

Remote • January 2025 –

- Currently redesigning the user experience of an e-commerce portal serving over 10,000 users.
- Planning and conducting user research over a two-month period using methods such as interviews and pitch provocation to identify new feature opportunities.

UX Designer Intern at SmartX

Budapest, Hungary • July 2023 – September 2023

- Designed a Document Management System (DMS) for our client, enabling compliance with new legislation and streamlining internal processes, which achieved a 94% satisfaction rate among key users within the first month of usage.
- Conducted user research over 2 weeks with 3 key users, utilizing methods such as contextual inquiry and task analysis.
- Performed 4 rounds of user testing with 5 target users to iterate early on early design concept, resulting in a 28% increase in task success rate.
- In addition to our initial client, 3 more institutions expressed their interest in purchasing the software.

UX Designer Intern at Vodafone VOIS

Budapest, Hungary • October 2022 – April 2023

- Designed new user flows and redesigned existing user journeys for the UK webshop, resulting in an 18% increase in the conversion rate.
- Identified pain points through 2 rounds of user testing, utilizing interviews and questionnaires.
- Achieved a 23% increase in Customer Satisfaction Score (CSAT) by iterating on the design through A/B testing.
